

INTERNATIONAL SEARCH REPORT

at Application No
PCT/US 01/28680

A. CLASSIFICATION OF SUBJECT MATTER
IPC 7 A61B5/055 A61B5/103

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 A61B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

COMPENDEX, EPO-internal, INSPEC

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category * Citation of document, with indication, where appropriate, of the relevant passages

Relevant to claim No.

X ANDRIACCHI THOMAS P ET AL: "Methods for evaluating the progression of osteoarthritis"
JOURNAL OF REHABILITATION RESEARCH AND DEVELOPMENT, MARCH/APRIL 2000, VETERANS ADMINISTRATION, BALTIMORE, MD, USA, 'Online!
vol. 37, no. 2, pages 163-170,
XP002188111
Retrieved from the Internet:

cited in the application
the whole document

1-33

☐ Further documents are listed in the continuation of box C.

☐ Patent family members are listed in annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another claim or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

T later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

X document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

Y document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

Z document member of the same patent family
